Software Engineer with 5+ years of experience designing, developing, and maintaining enterprise Java and full-stack applications using Java, Spring Boot, Angular, and microservices. Experienced in leading feature development, coordinating development tasks, owning critical business modules, and delivering production systems for banking and telecom clients. Strong background in REST APIs, event-driven architecture, Spring Security, Docker, and production support across high-availability enterprise applications.

TECHNICAL EXPERTISE

Backend : Java, Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Python, FastAPI, Kafka, RabbitMQ, MQTT, WebSocket

Frontend : Angular, React, Vaadin, TypeScript

Databases : SQL, MS SQL Server, MongoDB, InfluxDB, InfluxQL, Redis

DevOps / Tools : Docker, Git, Grafana

Testing / Automation : Selenium, Sikuli

PROFESSIONAL EXPERIENCE

Nybsys Ltd, Dhaka, Bangladesh

Software Engineer

October 2022 – Present

- Developed and maintained a **TR-069 (CWMP)-based 4G/5G Device Management Platform** using Python microservices and Angular for remote provisioning, configuration, firmware upgrades, diagnostics, and monitoring of telecom devices used by **Grameenphone**.
- Implemented **event-driven processing** using RabbitMQ for device faults, logs, and performance monitoring.
- Developed a **Financial Transaction Management System** using Java and Spring Boot with **Spring Security (JWT, RBAC)**.
- Developed backend services for **SIP/VoIP** communication systems supporting enterprise call management features.
- Developed **Angular** frontend modules and integrated them with Spring Boot REST APIs, including the **Water ATM Management System** used by **Drinkwell**.
- Developed a React-based administration panel for the **Sentra Push-to-Talk (PTT)** communication platform.
- Built **Grafana dashboards** and optimized **InfluxQL** queries for real-time monitoring and operational reporting.
- Containerized microservices using **Docker** for consistent development and testing environments.
- Served as the primary Java developer** for multiple business-critical applications, leading feature implementation, coordinating development tasks, and providing production support.

Naztech Inc, Dhaka, Bangladesh

Junior Software Engineer

March 2021 – September 2022

- Developed backend services for **Loan Management** and **ATM Reconciliation** systems using Java and Spring, deployed for **Community Bank Bangladesh PLC (CBBL)**.

- **Led feature implementation and task coordination** for **Bangladesh Bank–compliant CIB/CL Reporting** modules, ensuring successful regulatory reporting delivery.
- Collaborated with business stakeholders to analyze requirements and deliver compliant banking solutions.
- Automated financial reporting workflows and implemented desktop/web automation using **Selenium** and **Sikuli**.
- Designed **Grafana dashboards** for operational and financial reporting.
- Maintained enterprise applications, resolved production issues, and delivered new business features.

PROJECTS

Connectly – WhatsApp-like Real-Time Messaging Platform

Tech Stack: Java, Spring Boot, Angular 18, Spring Security, Redis, WebSocket, WebRTC, JPA, Flyway, MapStruct

- Built a microservices-based real-time messaging platform inspired by WhatsApp, consisting of Authentication, User, Chat, Media, and Gateway services.
- Implemented JWT authentication, access & refresh tokens, Role-Based Access Control (RBAC), and secure REST APIs using Spring Security.
- Developed real-time one-to-one and group messaging using WebSocket, supporting typing indicators, online presence, read receipts, and delivery status.
- Integrated WebRTC signaling to support peer-to-peer and group audio/video calls.
- Developed a responsive Angular 18 frontend using Standalone Components and Signals.
- Implemented media upload/download, Redis-backed session management, Flyway database migrations, MapStruct, and OpenAPI documentation.

EDUCATION

Dhaka International University (July, 2023 - present)

BSE in CSE (3rd semester CGPA: 3.11/4.0)

Dhaka Polytechnic Institute (2016 – 2020)

Diploma in CSE (CGPA: 3.47/4.0)

CERTIFICATIONS

Certified in Robotic Process Automation (RPA)

Bangladesh Computer Council (BCC), ICT Division (2020)
